software;. My 2010 935-S kit
came with the old software. I
need newer software! I've seen

some around, but they won't work for me. My System: I've been looking for a license I have to use for my Icom IC-N209. The only thing I can find is this - a copy on eBay. My license says IC-N209, but this one says ECC-N209. The kit came with a Windows 98 CD, but I don't have that and can't find another. Is there anyway I can still program with this thing? If so, what's the latest software I should have? How much? Is there any way to run a program I have

written in an emulator on a CP/M
computer? I tried running it on
DOSBOX, but it didn't work for
me - and I'm not sure how to try it
on an emulator on a CP/M
system. I have a variety of Icoms,
including my 650A, 760,
